

## Meyers Norris Penny LLP expands Regina practice

Regina, SK – Nov. 17, 2005 – Meyers Norris Penny LLP (MNP), the only Top Ten national accounting and business advisory firm based in Western Canada, is expanding again with the merger of the Regina-based Envision Group consisting of Dean Klippenstine, CA and Adam Knight, CA and their team. Through the merger, which becomes effective Dec. 1, 2005, Envision Group will operate under the name Meyers Norris Penny LLP.

Adam Knight, CA, a partner with the newly merged firm, says the merger will be a tremendous benefit to clients. “We wanted to offer our clients a full range of services to meet their needs, from assurance to business valuations to succession planning and more. MNP offers all of those services and resources. They also have an experienced team of advisors that specialize in the agriculture industry – a key advantage for our many agricultural clients.”

Howard Crofts, FCA, Regional Managing Partner for MNP’s South Saskatchewan Region, agrees the partnership is an ideal fit. “MNP has had an office in Regina for many years, and we’ve always been very active in the community. That first-hand knowledge and insight into the local market has enabled us to better understand the issues our clients are facing, and assist them in realizing their goals.” Crofts adds that joining together with the Envision Group will further enhance MNP’s ability to deliver solutions to its clients in Regina and South Saskatchewan.

MNP has more than 70 offices across Western Canada, and is the largest chartered accounting and business advisory firm in Saskatchewan.

### About MNP

Serving the Western Canadian mid-market since the 1940s, MNP provides its clients with world-class advice in accounting, financial and advisory services to meet their personal and business needs.
